

RELAX - RECOVER - PERFORM

WWW.ENNADAISAUNAS.CA

Encased in Nature

Thoughtfully designed components such as heat source placement, roof angle, bench height and ventilation system all come together to create a sauna with a predictable thermal gradient paired with the perfect amount of fresh air.

Our customers get a high-quality sauna with thick 4x6 Western Red Cedar walls. This results in better heating efficiency and heat retention accompanied by a rich aroma of cedar wood. Premium materials combined with traditional design create an authentic sauna experience .

Thicker walls also significantly reduce exterior sound and create an acoustic environment that absorbs and dulls any interior sounds. Defy any weather and become fully immersed in your relaxation at any time without losing heat.

Designed to Breathe

We boast 72 cubic feet of volume per bather. That means when you buy a four person sauna, four people can actually fit comfortably in it. Upright seating provides excellent support, plenty of headroom and space to fully relax with or without company.

The environment promoted by an Ennadai Sauna provides an opportunity for peaceful relaxation that can be hard to find elsewhere. Maximize your comfort to get the best recovery possible and fully enjoy your sauna experience.

Polar Star

The Polar Star comes with an integrated vestibule and exterior door, giving you a warm space to towel off, change, or leave your boots. No icy cold draughts of air in the bathing area.

Capacity: 4-6 people

Interior: 7’ x 7’

Footprint: 12’ x 8’3”

Wapta

Experience the authentic charm of our Wapta sauna. It’s our most space and energy efficient design with a smaller footprint that adds a touch of elegance to any sized space.

Capacity : 2-4 People

Interior: 6’ x 6’

Footprint: 7’ 3” x 8’

Asulkan

Gather friends and family around the centrally located heater in our most spacious design. Rejuvenate and connect with groups large or small in your very own communal sauna: the Asulkan.

Capacity: 6-12

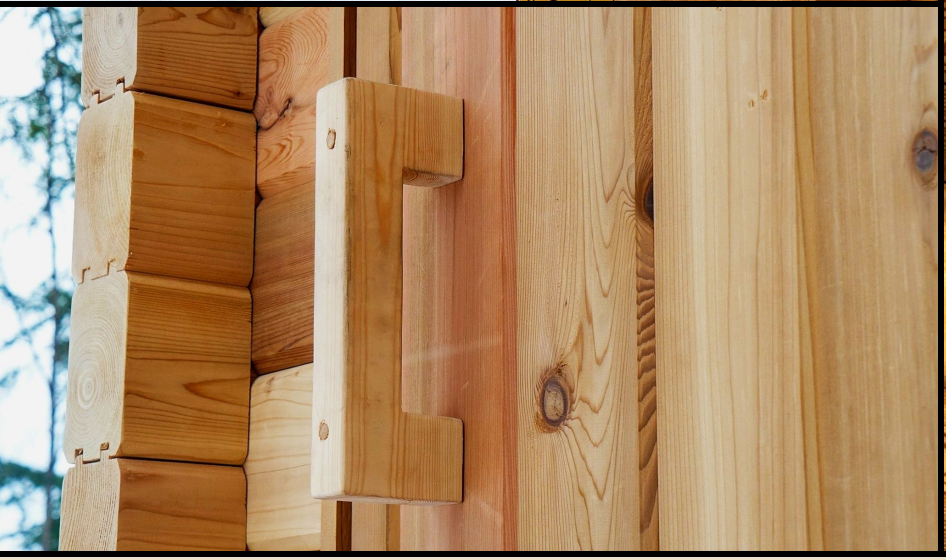
Interior: 10’ 5” x 7’

Footprint: 12’ x 8’ 3”

Easy Assembly.

From memorable backyard gatherings to peaceful, intimate getaways, Ennadai saunas seamlessly integrate into any setting. Installation is just as smooth, with every sauna arriving carefully packaged along with all of the components required to get your investment up and running.

Our combination of traditional materials and precise fabrication makes assembly a breeze. In fact, the majority of each kit locks together without the need for any fasteners or power tools.



Custom Solutions

Our experienced design team can work with you to produce tailor-made solutions for your space and landscape. You can also choose between exclusive materials and special features for your own unique experience. We can help you through the design process start to finish, your sauna, your way.
